VITAPPOINT SERIES 5000

XTRACTION®

DATA SHEET

VITAPPOINT SERIES 5000

AIR IS LIFE!

With the VITAPPOINT® air cleaners, harmful substances are almost completely filtered and the air quality is especially strong frequented or polluted rooms significantly increased.

The VITAPPOINT® air purifier sucks the polluted air near the floor and cleans it through two filter stages. The hygienically clean air is then passed through a ventilation grille on the top of the plant led back into the room. The separated particles remain in the filters and are disposed of with them.

HIGHLIGHTS

Most powerful air purifier on the German market

Filters viruses, aerosols, pollen and fine dust up to 99.995% from 0.001 µm

Access to control via App

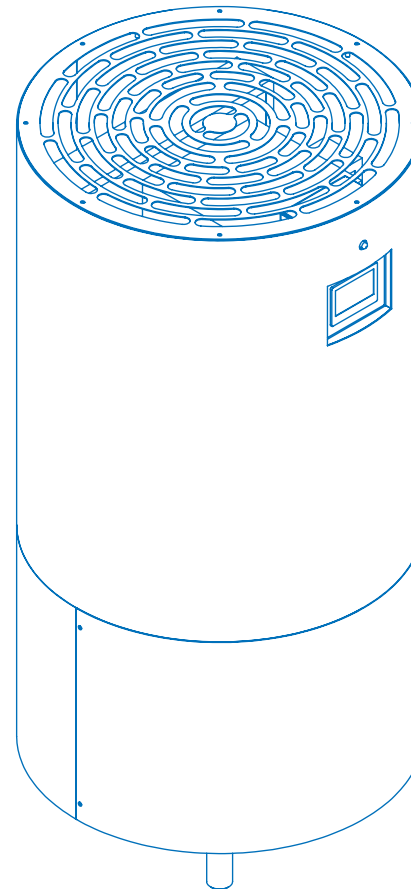

4.3 inch touch panel

Suitable for food, pharmaceutical and health industries

Room size and air volume adjustment

Monitoring filter saturation and operating hours

Air quality monitoring (CO2 sensor)

APPLICATION AREAS

Hotel / Gastronomy

Retail / Supermarkets

Hospitals / Nursing Homes /

Doctor's offices

Sports / Fitness

Schools / Daycare centers

Offices / Public authorities

Gas stations / Rest stops

Offices / Meeting rooms

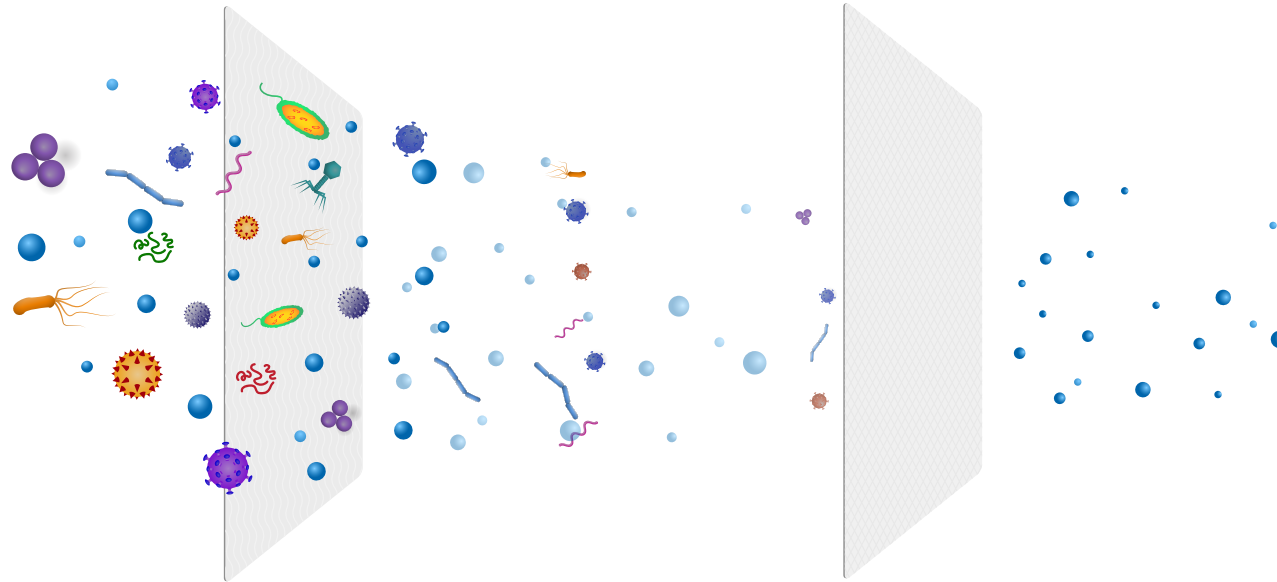

PERFORMANCE

2.500 m³/h

52,5 dB(A)

at maximum air capacity

FILTER | OPTIONS

FILTER LEVEL 1

Coarse dust filter G4 of 10 µm

FILTER LEVEL 2

HEPA H-14 Filter of 0,001µm

OPTIONS

Stainless steel construction

Numerous designs

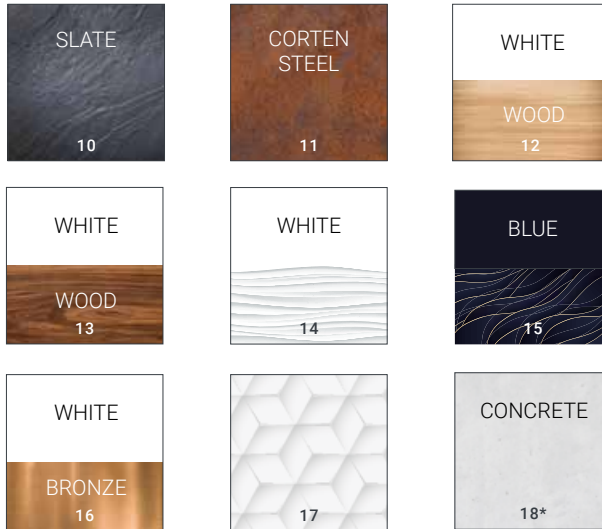

99.995 %

*Separation efficiency in
accordance with DIN EN 1822*

DESIGN

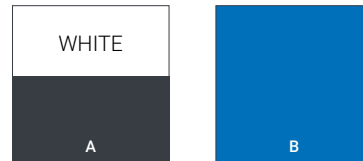

MOTIFS

*All motifs also possible only for lower cladding, with upper cladding in standard white

COLOURS

Color films in over 1,800 Pantone colors
2-colored possible
Optional with logo sticker

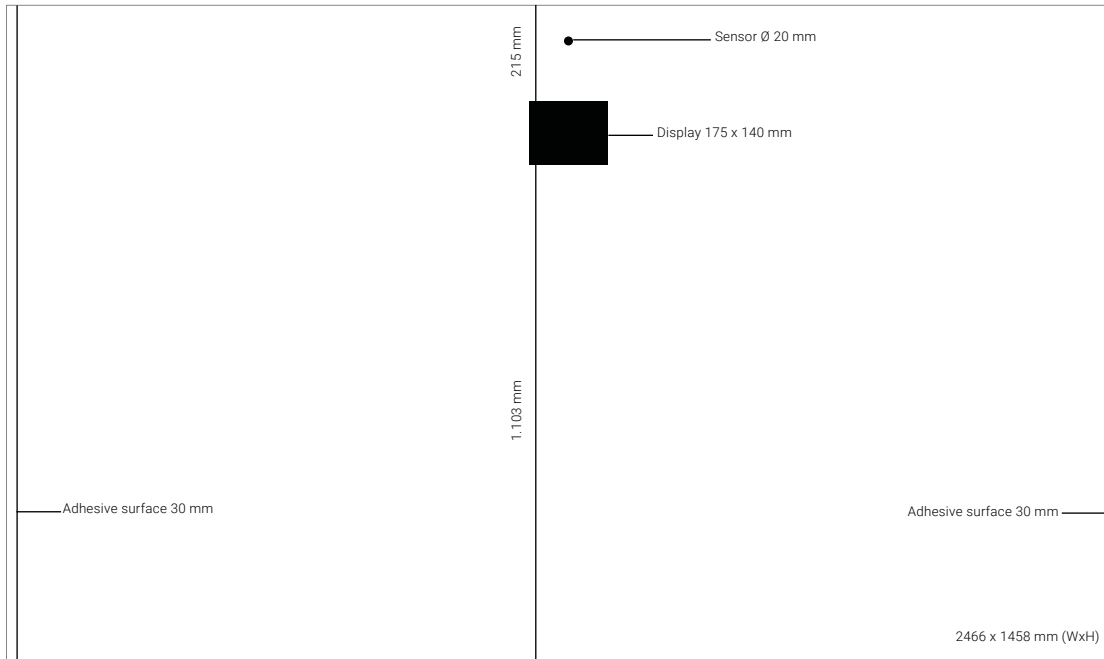

DESIGNS

Your personalised design with logo

DESIGN | DIMENSIONS SERIES 5000

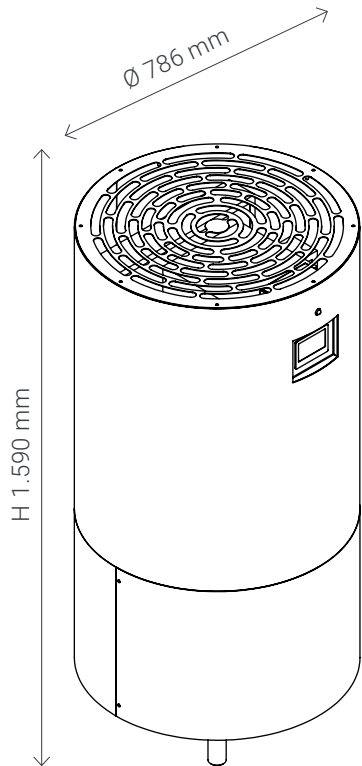

DESIGN DELIVERY

1. 300 dpi | CMYK color space | Print PDF
2. No recess in the display, it is cut out
3. No recess in the sensor, it is cut out
4. No bleed
5. Delivery of the lower and upper foil in one piece

DIMENSIONS | CONTROL

DIMENSIONS

CONTROL

4.3 inch touch panel

User interface control

VITAPPOINT App

Adjustable air output

Low energy consumption

Sensor and display of CO2 concentration

Timer with pause times and adjustable air flow

Multilingual control

VITAPPOINT APP

Convenient control access via app

For smartphones, tablets and PCs

Easy installation

Management of up to 20 VITAPPOINT air purifiers

Access for 3 users at the same time

Individual naming of the devices

Synchronous or asynchronous mode

TECHNICAL DATA

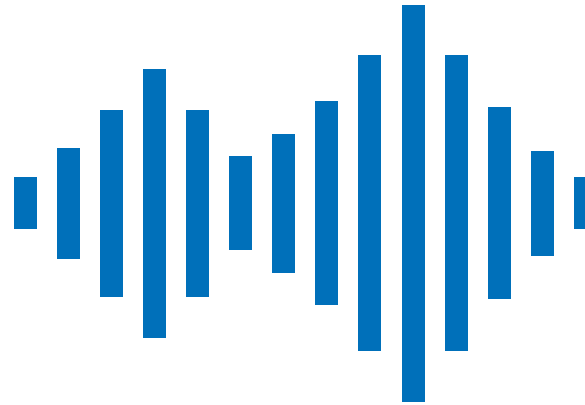

DESCRIPTION	VALUE
Max. room size	180 m ²
Supply voltage	230 V
Frequency	50 Hz
Current type	1 Ph
Motor power	750 W
Fuse	16 A
Max. operating point ventilator	5,000 m ³ /h
Max. performance in operation	2,500 m ³ /h
Weight (approx.)	135 kg
Sound pressure highest level	<52,5 dB(A)
Permitted ambient temperature	5 - 40 °C
Permitted humidity	70 %

NOTE: Technical data are as precise as possible, minor deviations may occur

SOUND LEVEL VITAPPOINT®

VITAPPOINT®	5000
Level 1 150 m³/h	26 dB(A)
Level 2 250 m³/h	27 dB(A)
Level 3 450 m³/h	30 dB(A)
Level 4 700 m³/h	34 dB(A)
Level 5 1.000 m³/h	38 dB(A)
Level 6 1.250 m³/h	42 dB(A)
Level 7 1.550 m³/h	45 dB(A)
Level 8 1.900 m³/h	48 dB(A)
Level 9 2.200 m³/h	50.5 dB(A)
Level 10 2.500 m³/h	52.5 dB(A)

XTRACTION®

by ABSAUGWERK

XTRACTION® is a brand of ABSAUGWERK GmbH and special Suction solutions that do not primarily serve the industrial sector, but rather cross-sector niche markets in the field of suction technology. In order to restore the air quality in heavily frequented rooms such as reception halls, waiting areas or public places, ABSAUGWERK® has the Vitapoint® air purifier under the XTRACTION® brand developed.

**„There are a thousand diseases,
but only one health.“**

Carl Ludwig Börne
